

Account Creation Manual
Ver 1.0
2019/3/2

[Account Creation]

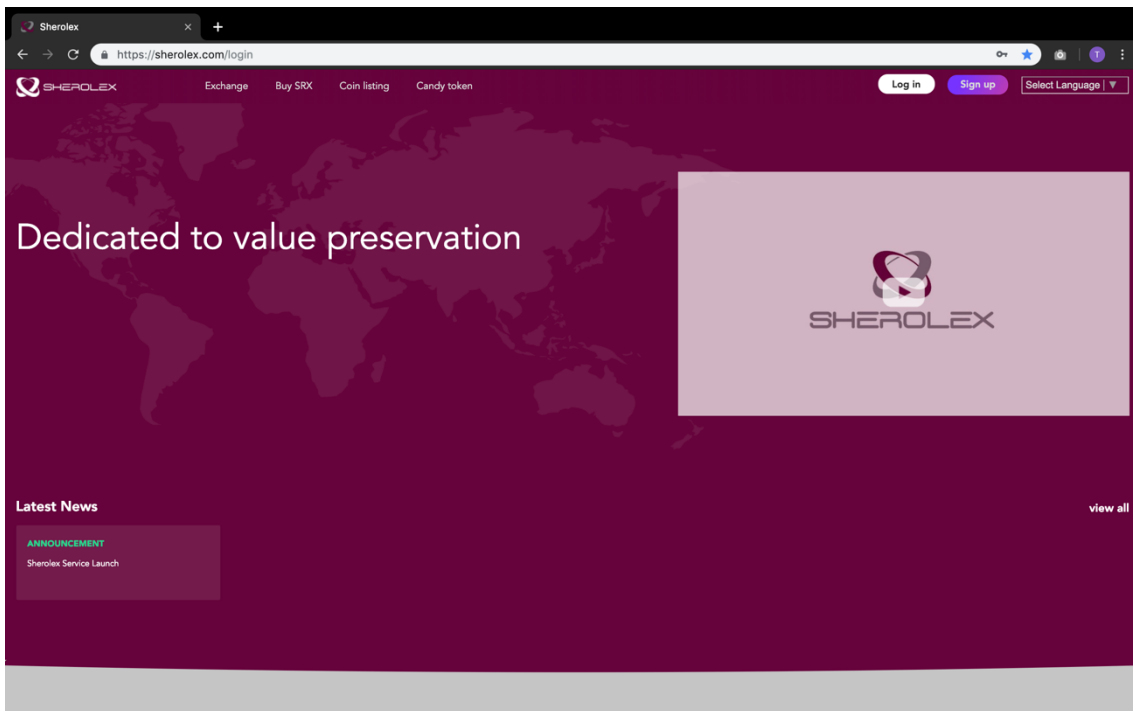

□Summary

We will explain how to create a new account.

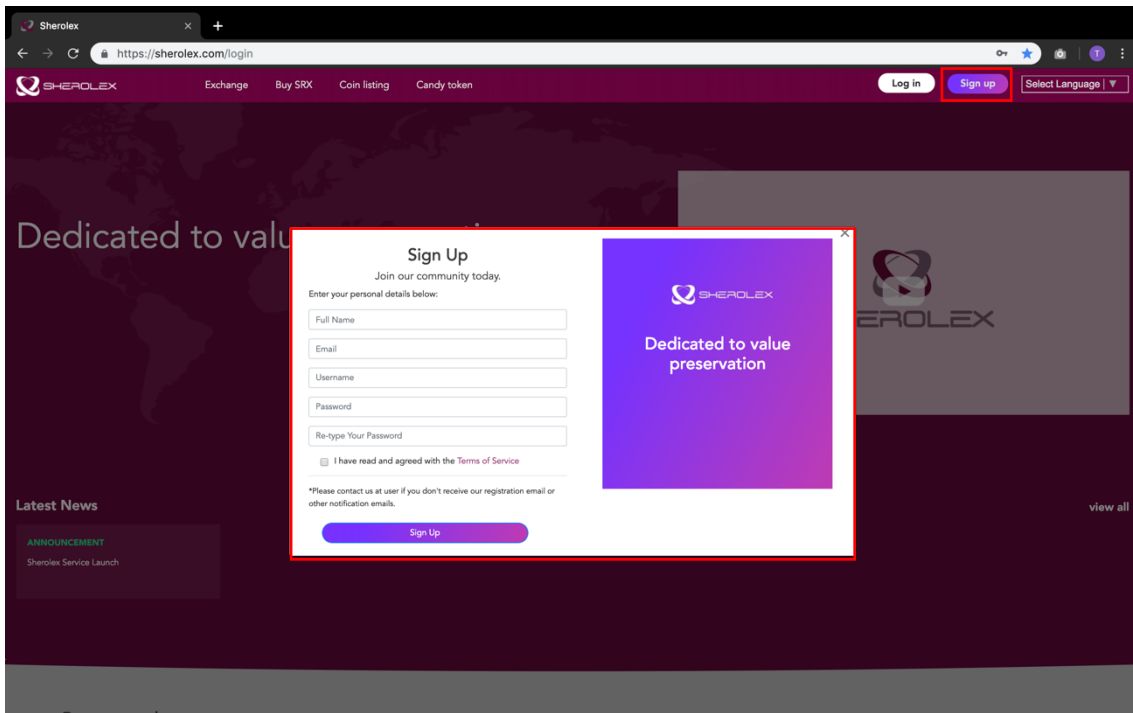

Please prepare an email address that can reliably receive emails, as well as a password of your choice (a combination of alphanumeric characters.)

□Procedure

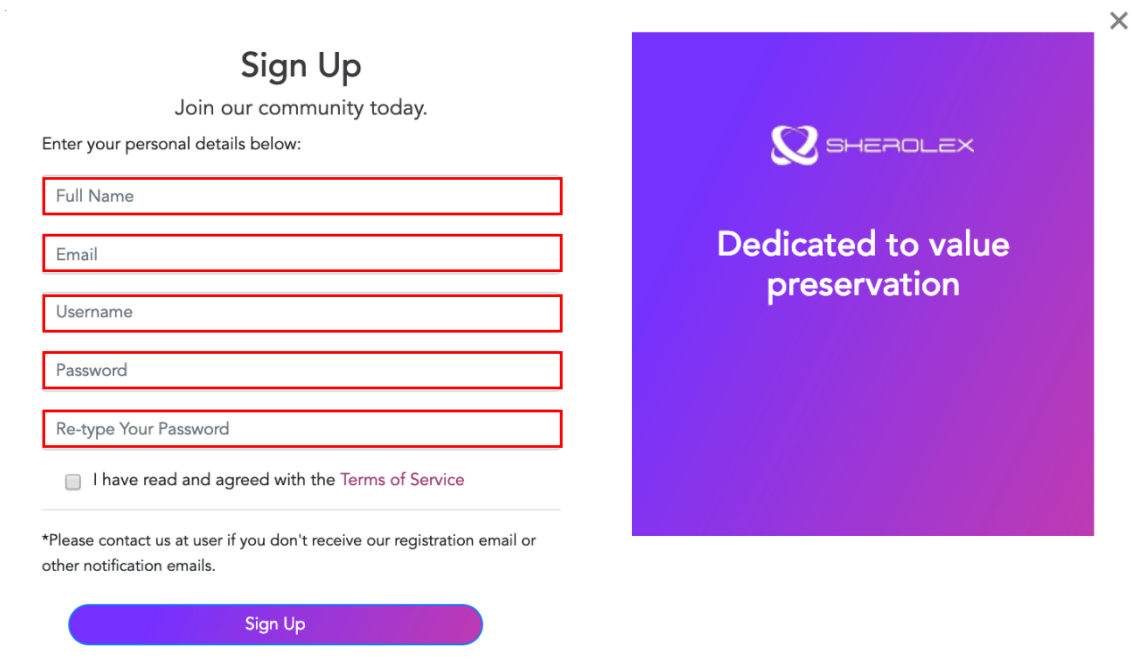

1. First, open the top page (URL: <https://sherolex.com/login>)

2. When you click on the “Sign Up” button on the upper right, an account creation form will appear.

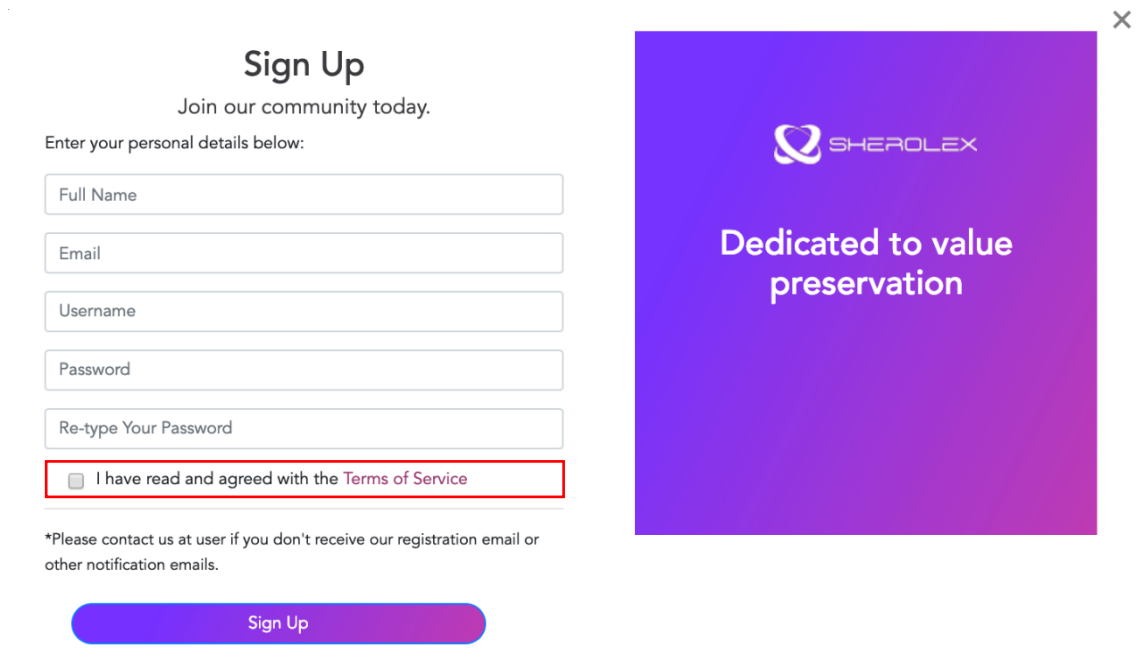

3. Fill out all fields of the account creation form with the required details.

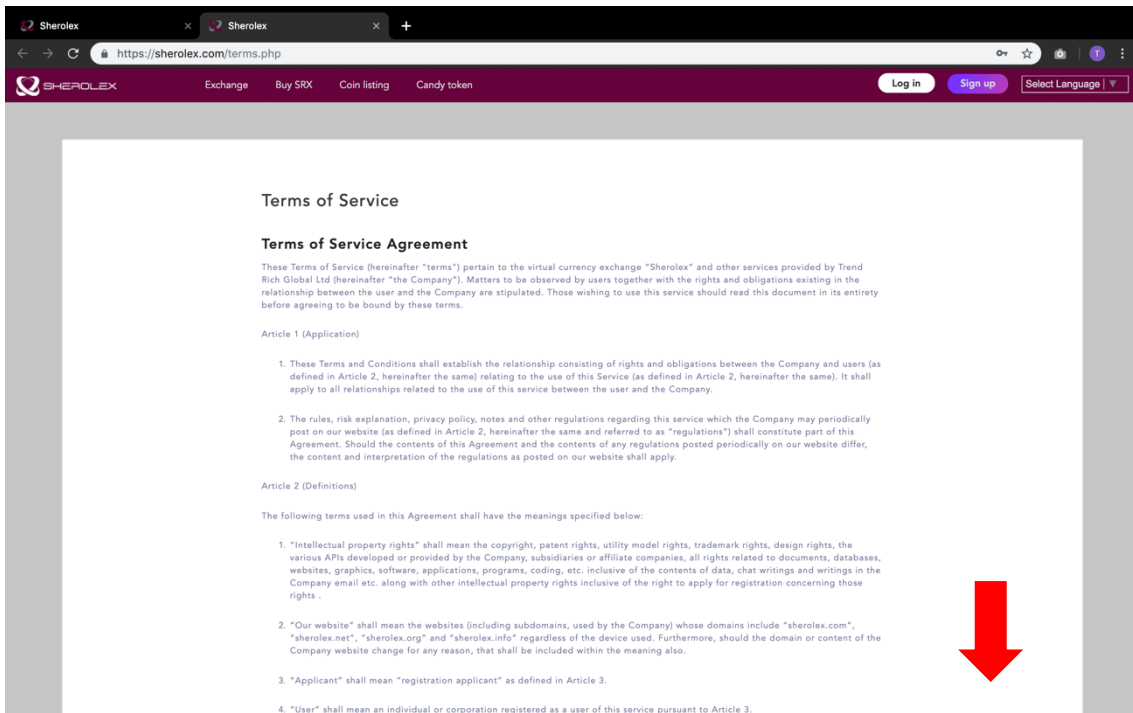

- Full Name: Please enter your full name.
- Email: Please enter an email address that can reliably receive emails (when a mobile phone email address is used there is a possibility that the email reply necessary for account creation cannot be received,)

- Username: Please enter a username of your choice.
- Password: Please enter a password of your choice (please avoid using things that are easy to guess such as birthdays or numerical sequences.)
- Re-type Your Password: Please enter what you entered in the Password field once more (please do not forget to write down the information that you have entered. We would also like to ask you to securely manage your personal information.)

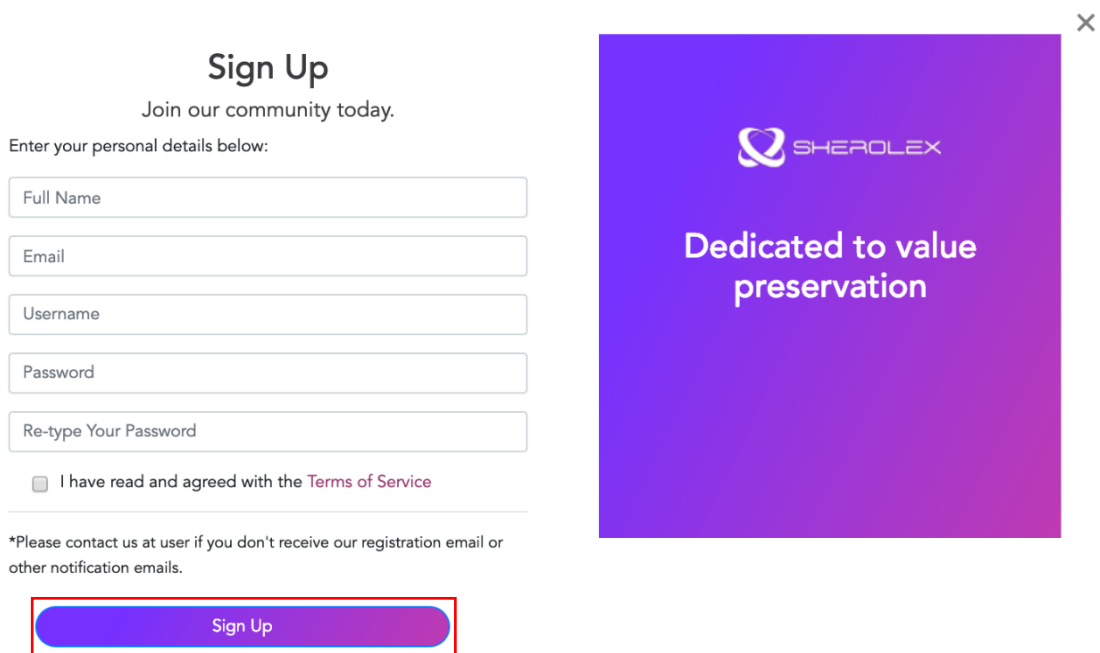

4. After you have made sure that you have read the Terms of Service, please tick the checkbox.

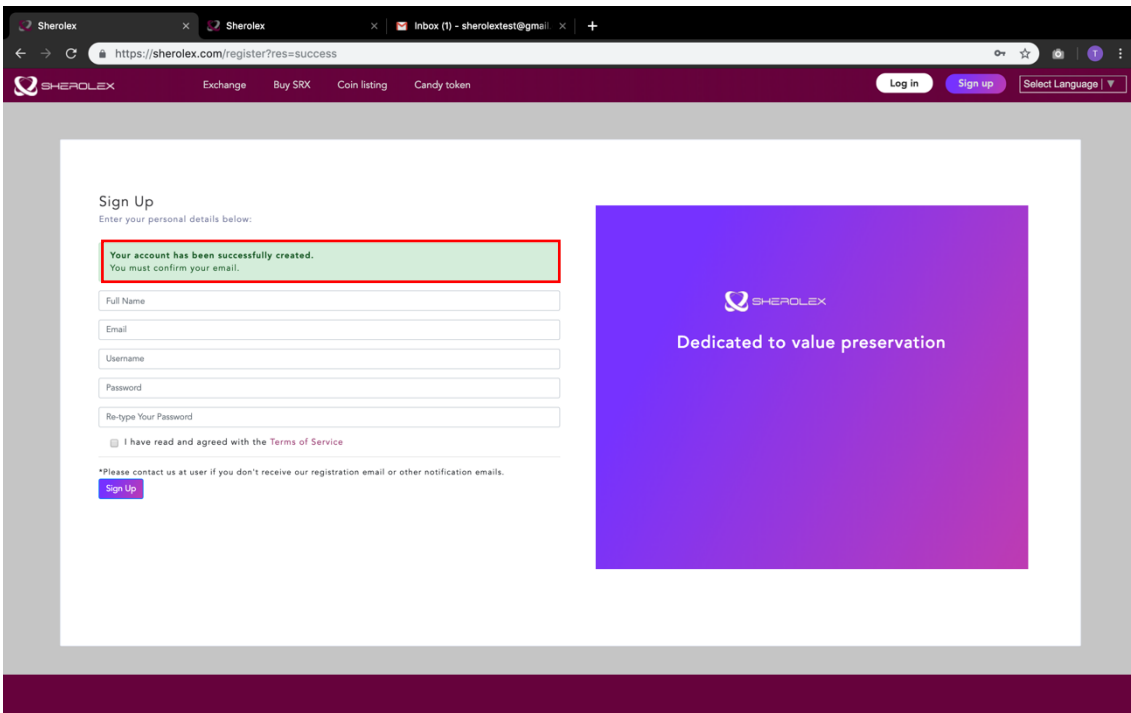

The image shows a 'Sign Up' form on the left and a purple advertisement on the right. The form is titled 'Sign Up' and includes the subtext 'Join our community today.' Below this, it says 'Enter your personal details below:' and lists several input fields: 'Full Name', 'Email', 'Username', 'Password', and 'Re-type Your Password'. At the bottom of the form, there is a checkbox labeled 'I have read and agreed with the Terms of Service', which is highlighted with a red border. Below the form, there is a note: '*Please contact us at user if you don't receive our registration email or other notification emails.' and a blue 'Sign Up' button. The advertisement on the right features the 'SHEROLEX' logo and the text 'Dedicated to value preservation'.

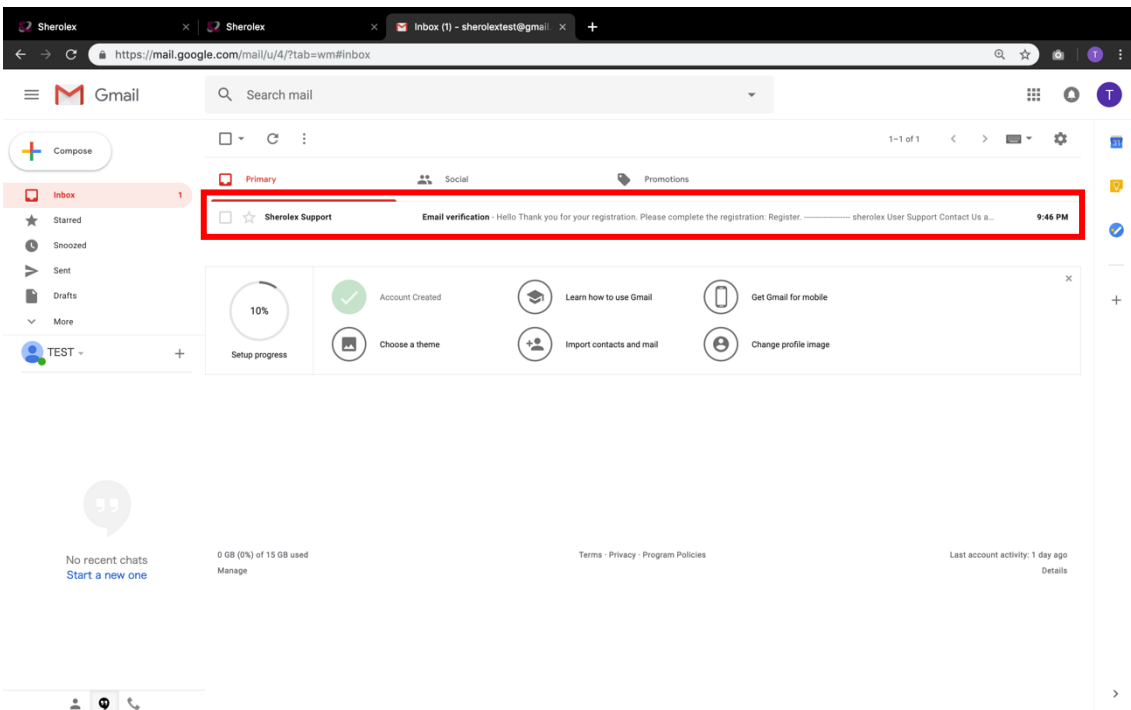

5. Once you have checked the information you have entered as well as the Terms of Service, and have ticked the checkbox, please click on the “Sign Up” button.

6. The screen will change, and if a message in green letters appears that reads “Your account has been successfully created.” then provisional registration has been completed.

7. A verification email is automatically delivered to your registered email address, so please click on "Register" in its text.

8. Your registration is complete once you have verified your email address.

[How to log in]

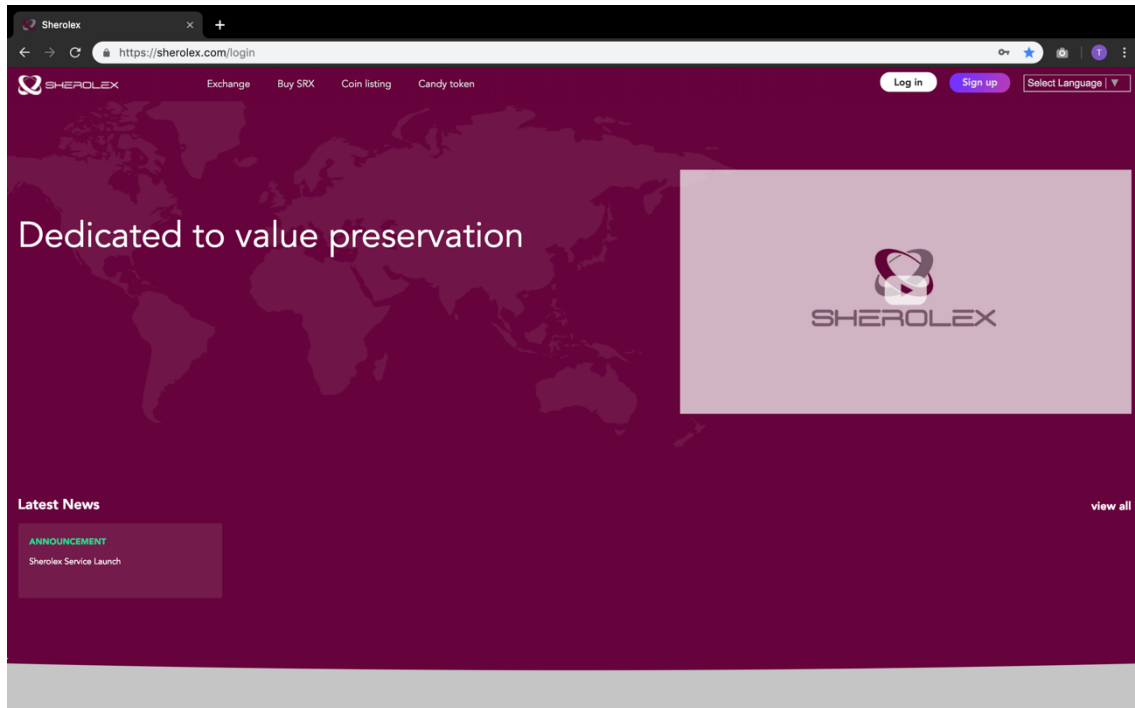

□ Summary

We will explain how to log in at Sherolex.

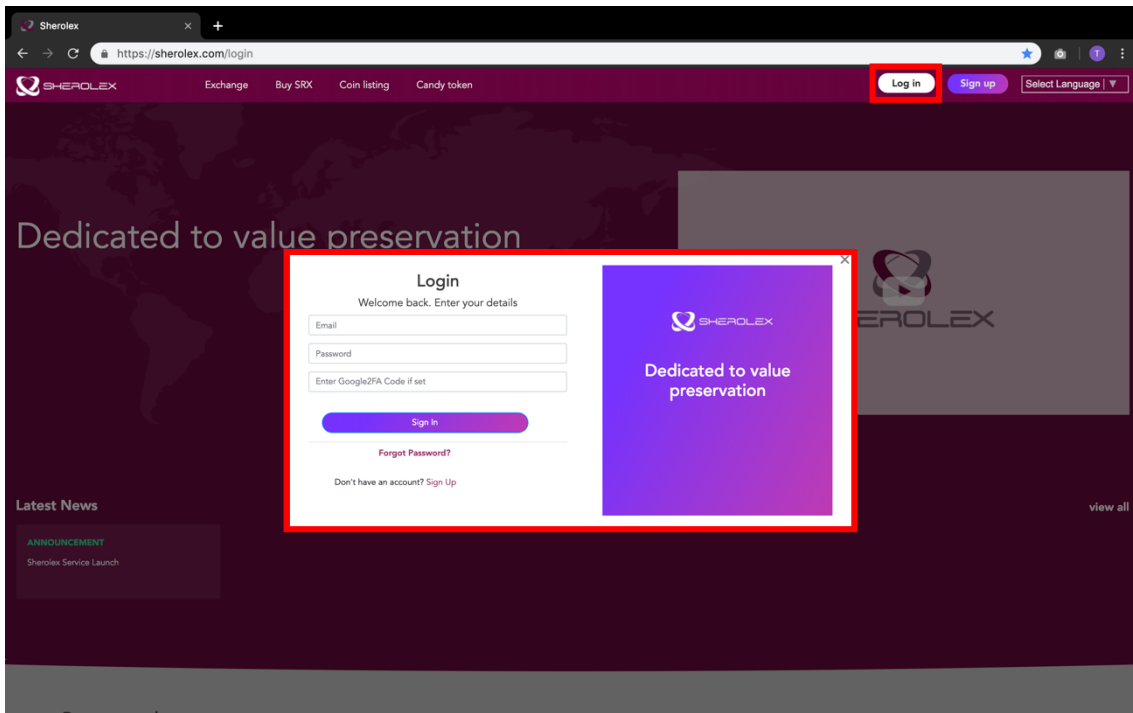

By logging in, you can check the balance of your assets, conduct various transactions, and change settings, etc.

□ Steps

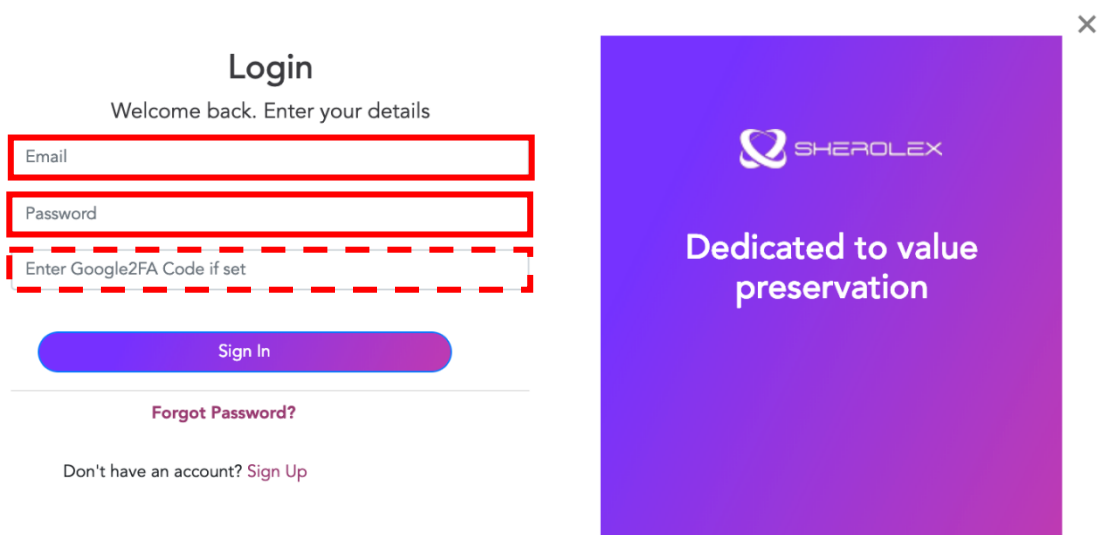

1. First, open the top page (URL: <https://sherolex.com/login>)

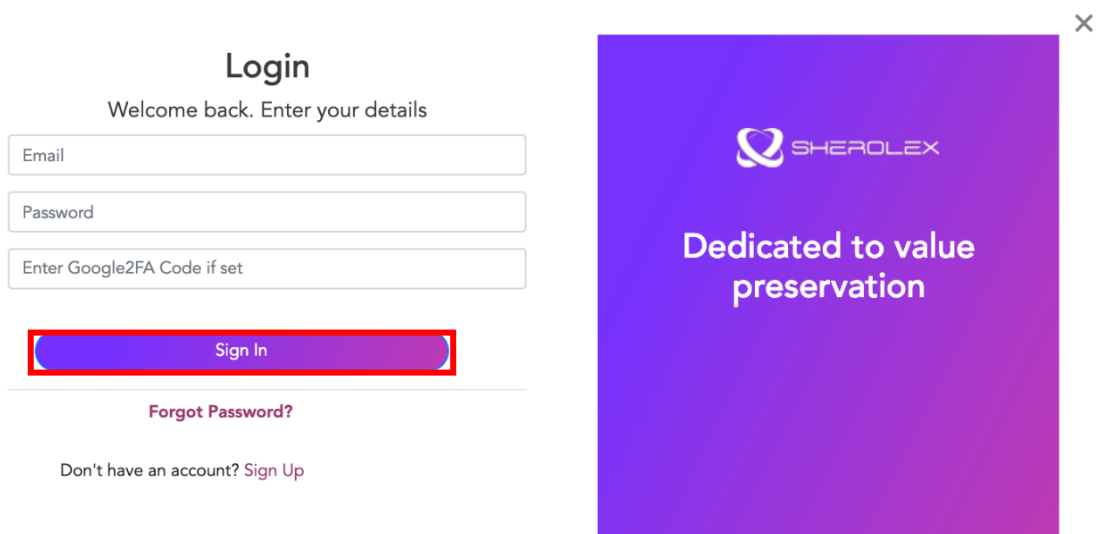

2. When you click on the “Log in” button on the upper right, a form to log in with will appear.

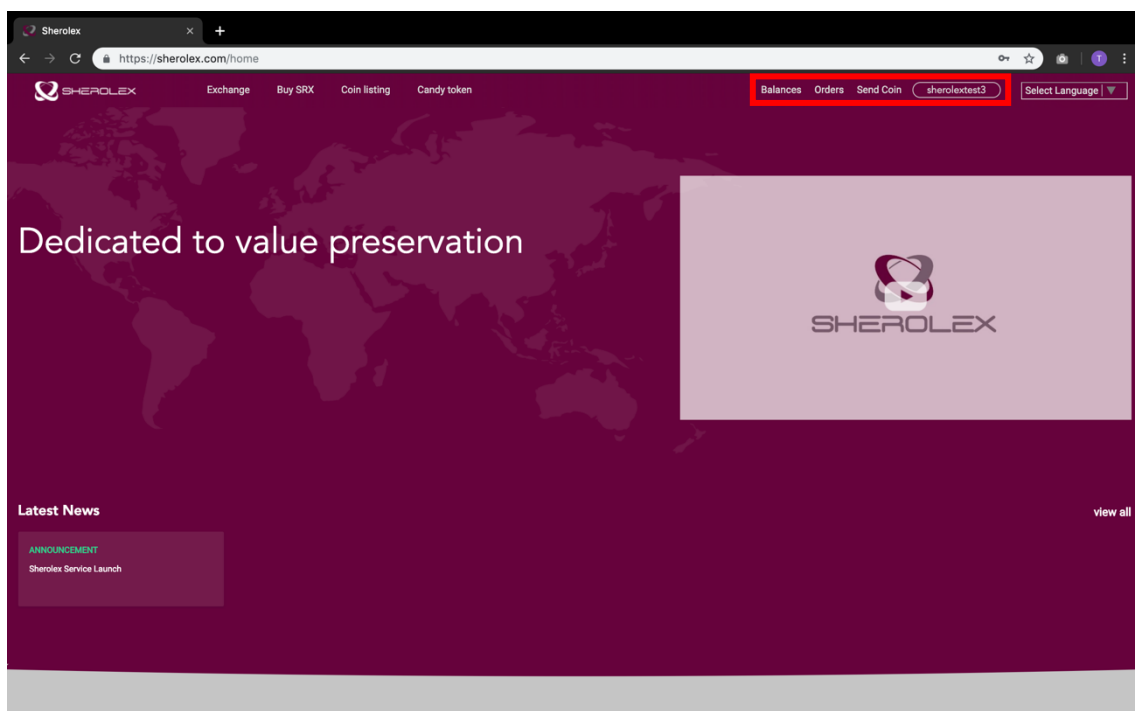

3. Enter both the email address and password that have been registered (if you have enabled Google two-step verification then please enter the verification code at “Enter Google2FA Code if you have enabled it.” Two-step verification is turned off by default, so you do not need to enter anything.)

4. Once you have entered your information into each field, please click on the “Sign in” button.

5. If your registered username is shown at the right of the header you have successfully logged in. The commands Balances, Orders, and Send Coin are displayed to the left of your username.

[How to reset your password]

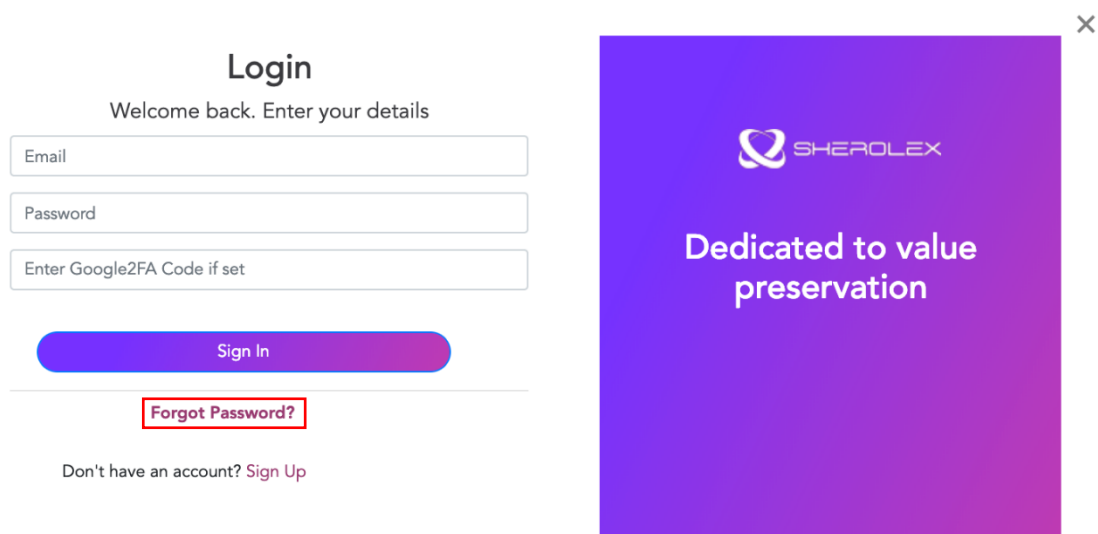

□Summary

We will explain how to reset your password.

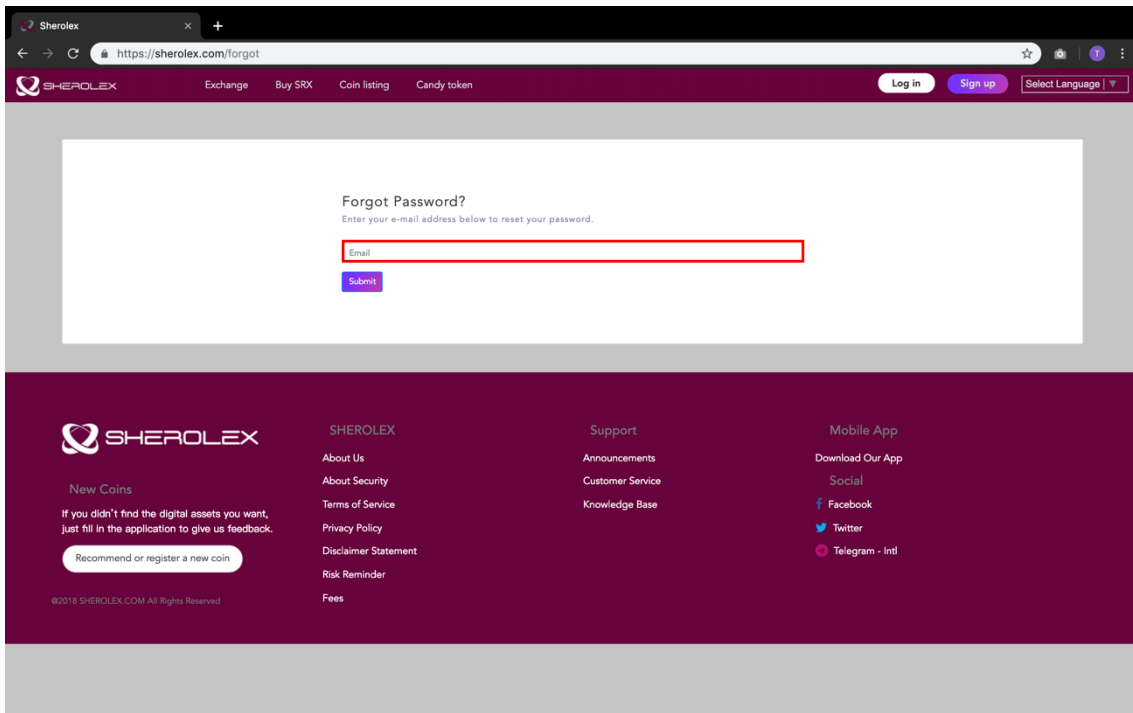

Please try this method if you have forgotten your password or you can't properly log in.

□Steps

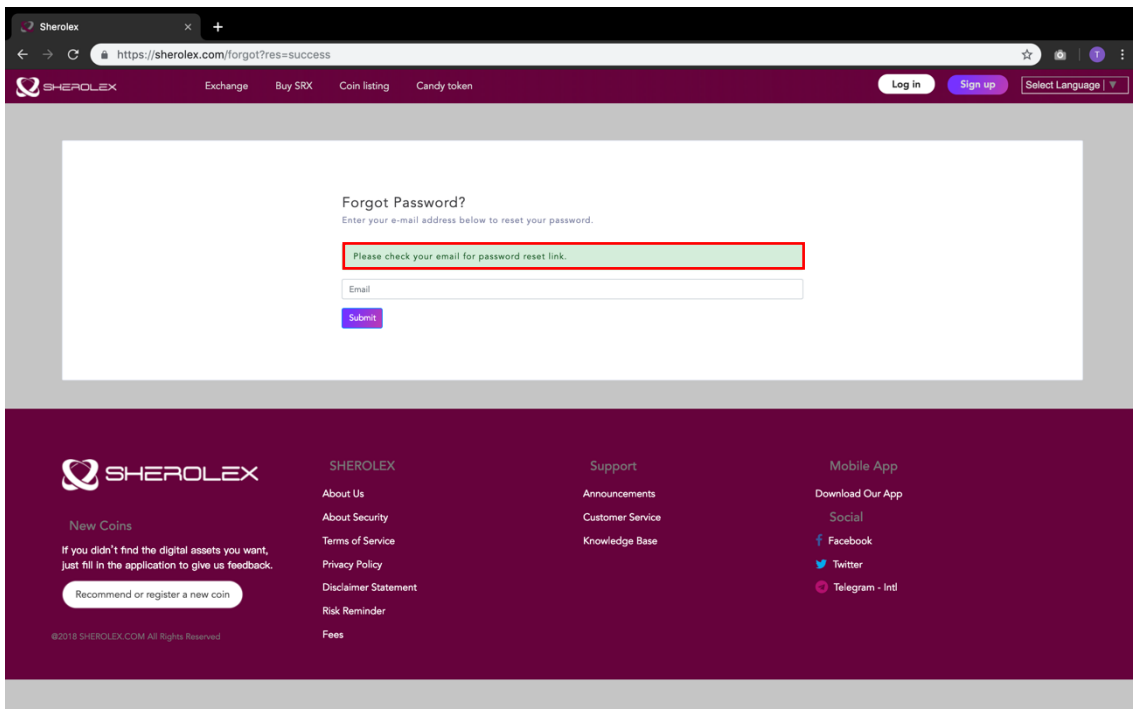

1. Please click "Forgot Password?" at the log in form.

2. Please enter your registered email address and click on the "Submit" button.

3. An email titled “Reset Password” will arrive at your registered email address, so please click on “here” in the text.

4. A password entry screen will open in a new tab, so please fill out the “new password” and “re-type” password fields, and finally click on “Submit.”

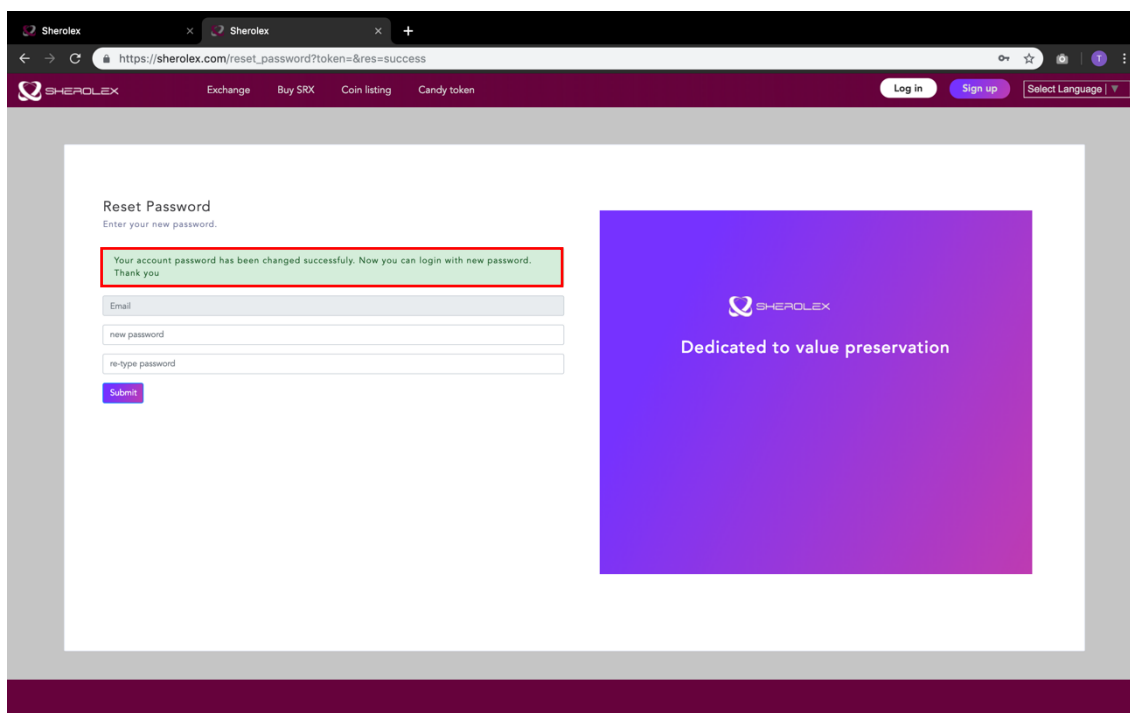

The screenshot shows a web browser window with the URL https://sherolex.com/reset_password?token=ucRxE7/m5IP39hYU1nizftU3aamkeJbJ. The page has a dark purple header with the Sherolex logo and navigation links: Exchange, Buy SRX, Coin listing, and Candy token. On the right side of the header are buttons for Log in, Sign up, and a language selection dropdown. The main content area is white and contains a 'Reset Password' form. The form has the title 'Reset Password' and the instruction 'Enter your new password.' Below this are three input fields: a large grey one for the current password, a red-bordered one labeled 'new password', and another red-bordered one labeled 're-type password'. A red-bordered 'Submit' button is at the bottom left of the form. To the right of the form is a large purple-to-pink gradient box with the Sherolex logo and the text 'Dedicated to value preservation'.

5. With the above, the reset of your password has been completed. Try to log in with your new password immediately.
Should you not receive a verification email about resetting your log in and password then

please contact us at the following:

[Google two factor authentication]

□Steps

1. Log in to Sherolex.

2. When you position the cursor over your username at the right of the header, a pull-down menu will appear. Please click on “Setting.”

3. The third setting field from the top is that of Google Authenticator. Set it up in sequential order.

- For logging in

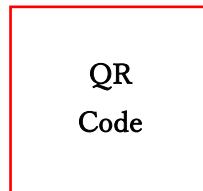

Two Factor Setup

To setup two factor authentication you first need to download Google Authenticator:

-  Google Authenticator for Android (Play Store)
-  Google Authenticator for iOS (Apple App Store)

Then scan the below barcode or, if you are not able to scan the barcode, you can enter the "Security Key" manually.

Security Key: (Time Based Code)

Enter the 6 digit code generated by Google Authenticator in the 2FA Code box and switch "Enable Two-Factor" to On

Important Save this secret code for future reference

Note: No Google account is required to use Google Authenticator; skip any Google logins

Account Security

Two Factor Authentication

Enable Two-Factor :

On Off

Enter 2FA Code :

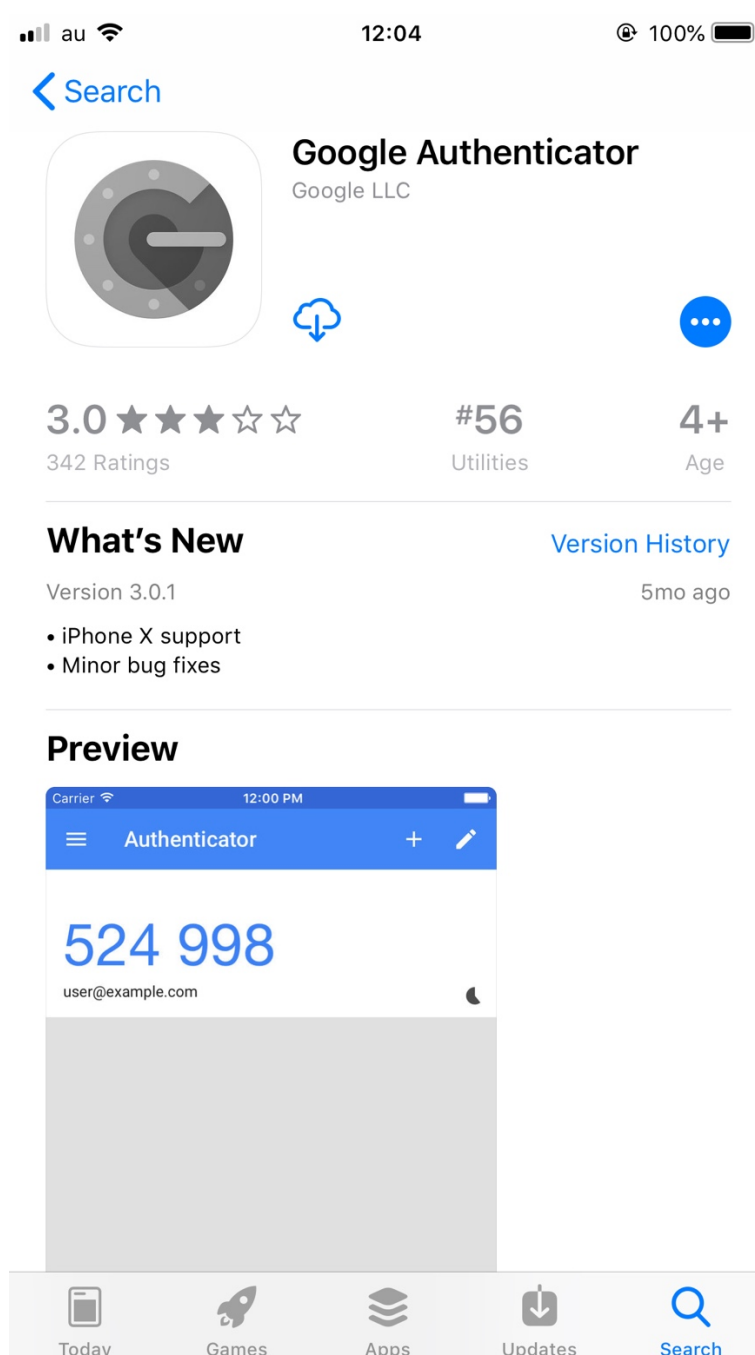

Google Authenticator Guide

1. Install Google Authenticator for **Android** or **Apple** and open Google Authenticator
2. Go to **Menu** -> **Setup Account**
3. Choose **Scan a barcode** option, and scan the barcode shown on this page
4. If you are unable to scan the barcode: Choose **Enter provided key** and type in the "Security Key"
5. A six digit number will now appear in your Google Authenticator app home screen, enter this code into the 2FA form on this page
6. Every time you login to sherolex.com you must enter the new 2FA code from your Google Authenticator into the 2FA box on the login form

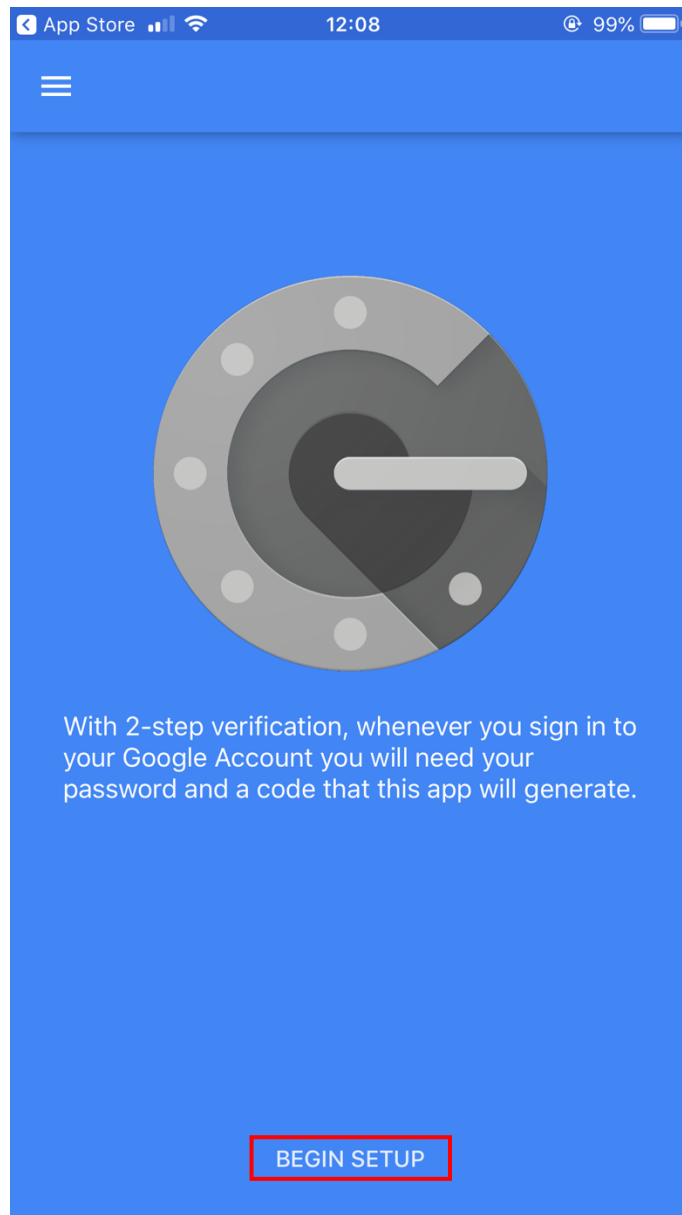

* In order to set up two step authentication, you need to first download Google Authenticator. Depending on the type of your device, please download and install either one of the following:

[Google Authenticator for Android \(Play Store\)](#)

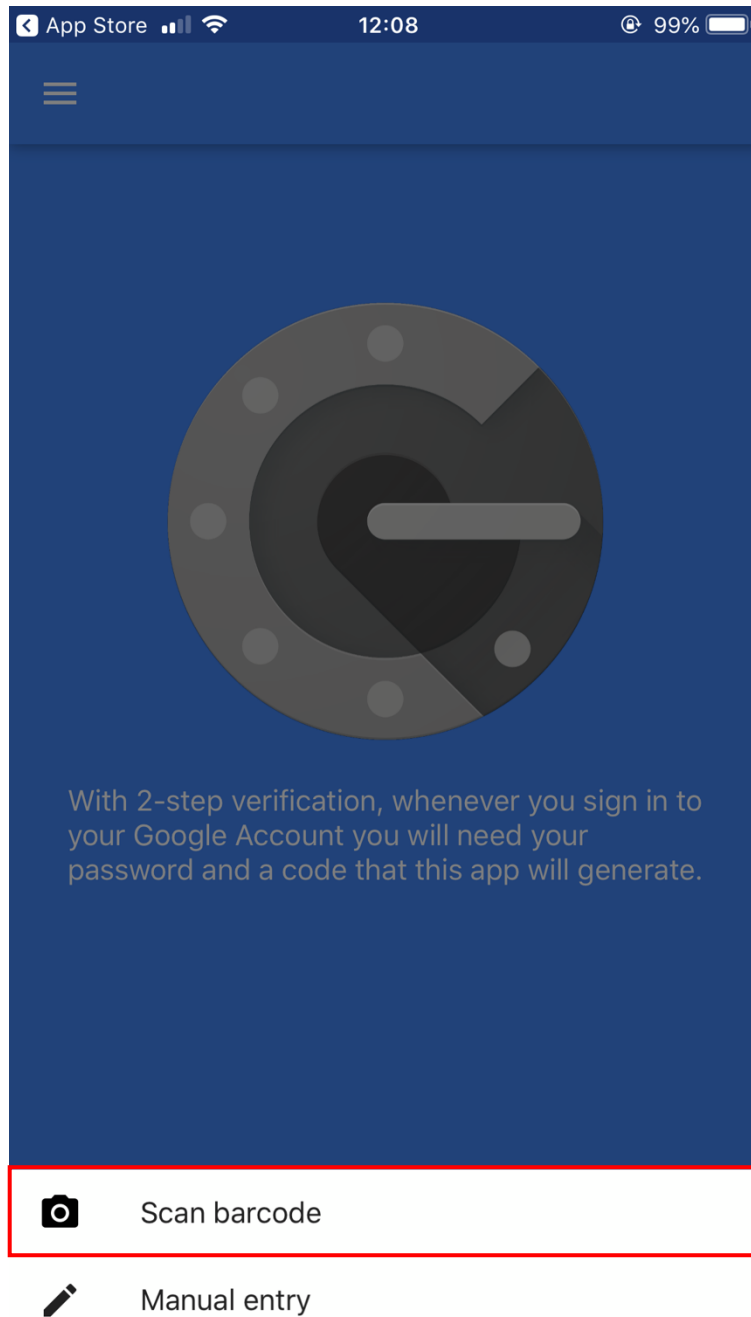

[Google Authenticator for iOS \(Apple App Store\)](#)

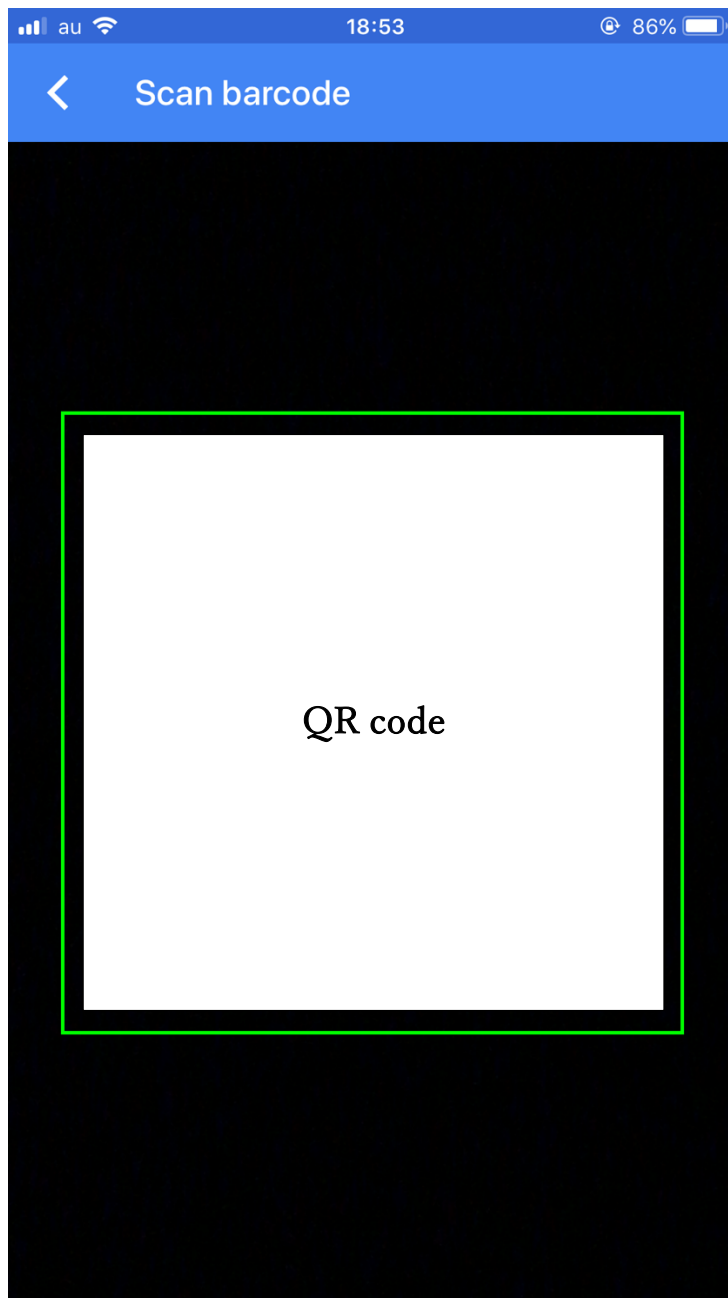

4. Install Google Authenticator on either your Android or iOS device, and open it.

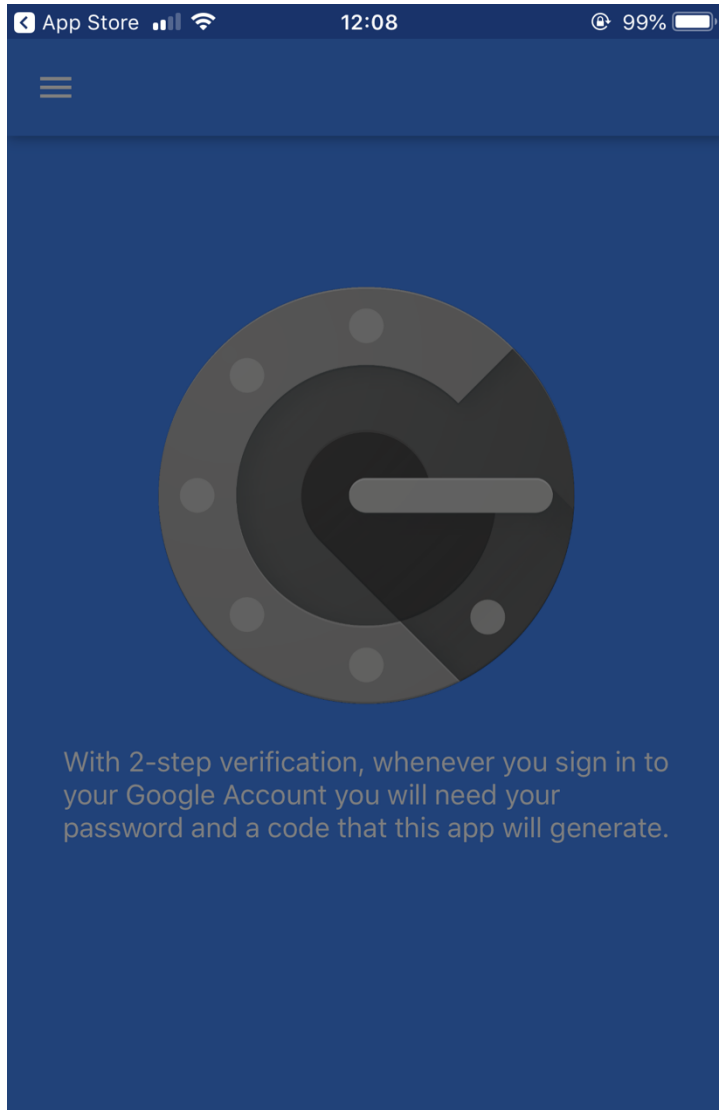

5. When you tap on “BEGIN SETUP,” a menu will be displayed. Please tap on “Scan barcode.”

6. Scan the QR code which is displayed on the “Two Factor Setup” of Sherolex.

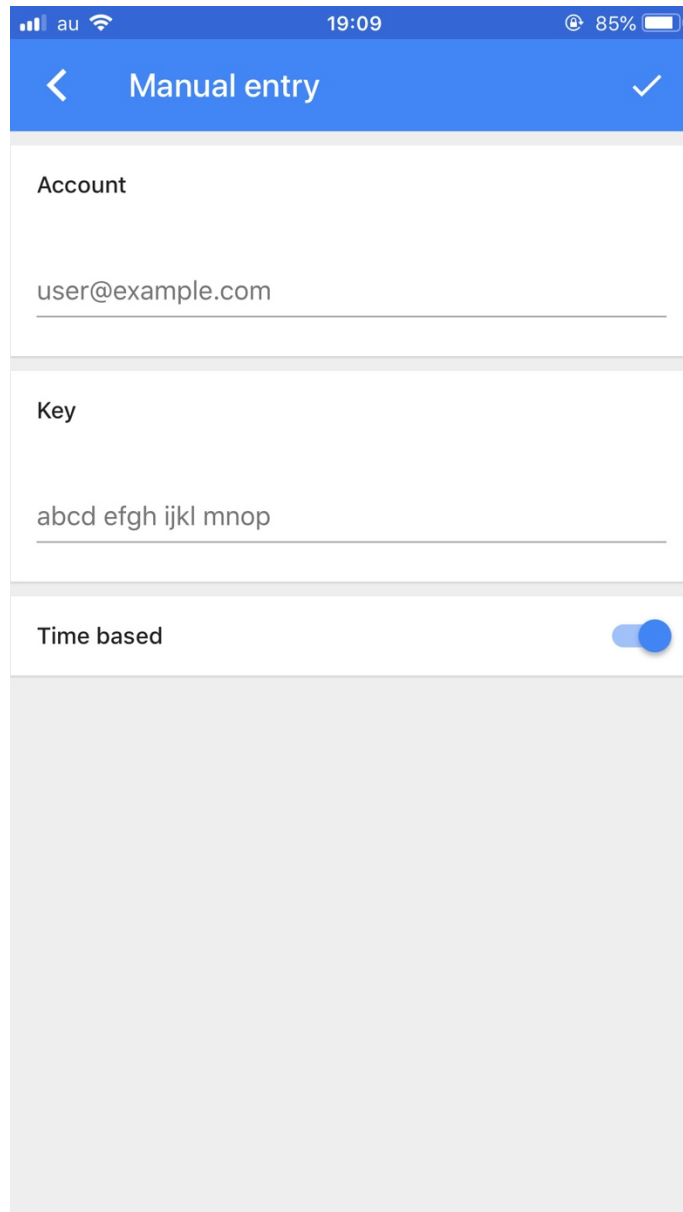

* If you are unable to scan the QR code, then please select "Manual Entry," and manually enter the "Security Key" in the "Key" of the email address you registered in "Account."

 Scan barcode

 Manual entry

7. 6-digit verification codes are displayed on the home screen of the Google Authenticator app. Set "Enable Two-Factor" to ON in the Sherolex setting screen, enter this code into the "Enter 2FA Code" field, and finally, click on "Submit." A text which reads "2FA has been turned on successfully" will be displayed.
